

Founded in 2019, Magnet started strictly as an advertising company. Since then, we have grown to provide videography, web design, and, as of 2023, our new Instagram software, Magnet Pro!

OBJECTIVES

- To organically grow the Instagram accounts with Magnet’s proprietary software, [Magnet Pro™](#)
- To improve the company’s brand awareness by increasing the account’s interactions with its targeted niche by upwards of 50,000 accounts daily.

MAGNET PRO™

- Through our comprehensive targeting approach, we focus on specific criteria such as account followers, reel likers, page likers, hashtags, locations, and explore page engagement.
- Our proprietary software enables us to engage with approximately 30,000 to 50,000 carefully selected and active Instagram accounts per day, all of which are already interested in your products or services.

BENEFITS

Get real engagement from real people.
Magnet Pro targets users specifically relevant to your company’s target demographic.

Effortlessly grow your following
On average, non-verified accounts experience a growth of 30-70 targeted, real followers per day. Verified accounts typically gain 50-300 followers per day.

Let us do the work
A magnet team member will be managing all of the 1st Phorm’s Instagram accounts ensuring its growth and allowing you to focus on your brand.
